Vespa
RED

Photo by: John Rae,
Use of this portrait not intended to signify HIV-positive status

(RED)® demonstrates the collective power of consumers to fight a preventable, treatable disease: AIDS. Founded by Bono and Bobby Shriver in 2006, (RED)® was created to deliver a sustainable flow of money from companies to the Global Fund, to further the AIDS fight. It also generates awareness around the disease to keep it on the public agenda. (RED)® has generated more than $475 million for the Global Fund, and 100% of that money has gone to finance HIV/AIDS programs globally.

# HOW (Vespa)RED WORKS

## 01

(RED) and Vespa have partnered to fight HIV/AIDS in some of the world's hardest hit countries, including India. When you purchase (Vespa)RED, you're making an impact in the AIDS fight.

## 02

For every (Vespa)RED sold, Vespa will contribute $50 USD to the Globle Fund's fight against AIDS in India. That's over 165 days of life-saving HIV medication.

## 03

100% of the contribution from product sales goes to The Global Fund's HIV/AIDS health & community programs, with no overhead taken. BUY (RED) SAVE LIVES.

# AIDS FREE GENERATION

Red represents the passion we and every (VESPA)RED owner has for bringing an end to AIDS. Vespa and (RED)® have partnered to travel together towards a world where no baby is born with HIV. It's the realization of our first AIDS Free Generation in over 30 years.

Red symbolizes the attraction that grows over time. Vespa tells the story of the evolution of a style, the meeting with the modern world, the creation of new lines that enhance the elegance of the original design.
